**Subject:** Reminder: Request for paragraph and timeframe for completion of high profile activities by January 15 at noon  
**Importance:** High

Dear All,

Just a friendly reminder to provide a briefing paragraph and timeline to me by tomorrow, January 15 at noon. Sorry to have moved the deadline up a bit but David will be taking the writeups to the meeting with the Administrator the following morning and I need a bit of time to put them together.

Please let me know if you have any questions.

Thank you!

Liz

**Subject:** Request for paragraph and timeframe for completion of activities by January 15

Dear all,

The Administration has requested that we provide them with a limited number of high profile activities that we intend to complete in 2020. It's our understanding that they intend to monitor our progress in completing these activities.

For each item, we need a brief paragraph describing the activity and a timeline of when it will be completed. The topics and the POC are listed below. Andy and Andrew, we're hoping that you can identify a single high profile activity that will be completed in 2020 related to PFAS and lead and provide a brief paragraph and timeline.

- a. Ozone ISA - John Vandenberg
- b. Science Transparency supplemental - Maria Doa
- c. PFBS - Samantha Jones
- d. Phase I of guidelines update - David Bussard
- e. IRIS Handbook - Kris Thayer
- f. ETBE/TBA - Kris Thayer
- g. High profile PFAS activity - Andy Gillespie
- h. High profile lead activity - Andrew Geller

I'm hoping you can send me this information by Wednesday, January 15. I'm happy to answer any questions.

Thank you very much.

Liz
